Android App Developer | React Native & Full Stack Developer

SUMMARY

Information Technology undergraduate with hands-on experience in mobile application development, full-stack web development, and AI-powered software solutions. Skilled in **React Native, Next.js, ASP.NET Core, Node.js, SQL Server, MongoDB**, **REST APIs**, and modern software engineering practices. Experienced in developing responsive applications, integrating backend services, implementing authentication systems, and building scalable software products.

TECHNICAL SKILLS

Programming Languages:
JavaScript, TypeScript, Python, C, C++

Frontend:
React.js, Next.js, HTML, CSS, Tailwind CSS

Mobile Development:
React Native, Expo, Android Development, Mobile UI Development, API Integration

Backend:
ASP.NET Core, Node.js, Express.js, REST APIs, Authentication, Authorization

Databases:
SQL Server, MongoDB, Supabase

AI & Machine Learning:
LLM Integration, Retrieval-Augmented Generation (RAG), Semantic Search, Vector Databases, TensorFlow, TensorFlow Lite

Tools & Platforms:
Git, GitHub, VS Code, Figma, Canva

EXPERIENCE

Android App Developer Intern - **Eccura Technologies Pvt. Ltd.** *June 2026 - Present*

- Developed and maintained 2+ cross-platform mobile application modules using React Native.
- Built 10+ reusable UI components, improving development efficiency and consistency.
- Integrated 5+ REST API endpoints for authentication, data retrieval, and backend communication.
- Collaborated on ASP.NET Core and SQL Server-based applications used in production workflows.
- Identified and resolved application bugs through testing and debugging, improving application stability.
- Contribute to production-ready software development workflows.

PROJECTS

QRForge — Universal QR Generator | Jun 2026 – Present *React, Vite, JavaScript. Link Github Jun 2026*

• Engineered a QR generation platform supporting **6 formats** including URL, WhatsApp, Email, Phone, Text, and WiFi.
• Created **10+ reusable UI components** with real-time QR generation and download functionality.
• Designed and deployed a **100% responsive** SaaS-style web application.

Private RAG AI Assistant | Mar 2026 *Python, Llama 3, Next.js, Supabase pgvector Architecture Github Mar 2026*

• Architected a RAG platform enabling AI-powered conversations over uploaded documents.
• Implemented semantic search, vector embeddings, and contextual knowledge retrieval.
• Integrated **3+ core modules** including document ingestion, vector search, and AI chat.

Expense Tracker App | Jan 2026 – Feb 2026 *React Native, Supabase. .Apk Demo*

• Developed a cross-platform expense management application with authentication and cloud sync.
• Implemented **4+ core features** including expense tracking, analytics, and transaction history.
• Built responsive mobile interfaces with real-time backend integration using Supabase.

EDUCATION

Bachelor of Technology (Information Technology) *2023-2027*

SRMS College of Engineering & Technology, AKTU *CGPA - 8.67/10.0*
